

OWEN TANK REPLACEMENT

This project includes work that will benefit District No. 29 customers in the Malibu and Topanga Canyon areas. The work includes the construction of a new 500,000 gallon reservoir and demolition of an aging 100,000 gallon reservoir. The objective of this project is to increase system storage capacity to meet existing domestic and fire flow needs.

Construction of this project is expected to begin in Fall 2014.
